Subject: FW: PCB Testing Lab Contacts

Per our TSCA Workgroup meeting for a potential TiO2 testing study, here is a list of qualified labs to perform EPA Method 1668C analyses from Jeff. As a reminder, the SRRTTF has used SGS Axys for most of its work, so they are familiar with our QAPP requirements.

Thanks Jeff!

Subject: PCB Testing Lab Contacts

Hi Doug,

See below for info for 1668 testing labs the City has worked with before (the first three specifically for product testing):

SGS Axys
Sidney, BC Canada
Contact: Richard Grace rgrace@axys.com (250) 655-5800

Pacific Rim Labs.
Surrey, BC Canada
Contact: Dave Hope dave@pacifirimplabs.com (604) 532-8711

Vista Analytical
El Dorado Hills, CA
Contact: Martha Maier mmaier@vista-analytical.com (916) 673-1520

ALS Burlington
Burlington, ON Canada
Contact: Ron McLeod Ron.Mcleod@alsglobal.com (905) 331-3111

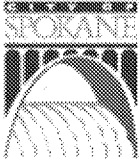

Test America West Sacramento
W. Sacramento, CA
Douglas Weir Douglas.Weir@TestAmericaInc.com (916) 374-4389

This is by no means an exhaustive list of who can do this work. I looked up the SGS North Carolina lab, and it looks like they also have WA state accreditation for 1668C.

Let me know if you need more info.

Thanks,

Jeff
